## ABOUT ME

I'm an intermediate web developer with a strong analytical mindset and a passion for leveraging technology to solve complex problems. My experience spans building scalable applications and optimising architecture using modern frameworks such as TypeScript and React.

I am particularly motivated by the role technology can play in shaping inclusive solutions; when teams reflect the diversity of the world, we are better positioned to create impactful, far-reaching products. With a focus on continuous learning, I contribute not only through technical expertise but also by actively participating in team leadership and fostering strong communication. I thrive in collaborative environments, working closely with diverse teams to drive innovation and achieve meaningful outcomes.

## SKILLS

- Curious and analytical thinker. I am always looking for new and more efficient ways to solve problems
- Problem solving and the ability to learn quickly and collaboratively
- Strong interpersonal and communication skills. Throughout my time at Montoux I have demonstrated the ability to work well with a diverse group of people, often showing leadership in team meetings

# EXPERIENCE

## ● MONTUOX

### Web Developer | Dec 2022 - Present

- Involved in rebuilding our actuarial platform, using TypeScript and React to redesign and optimise the application's architecture plus contributing to the successful adoption of X-state as our state management
- Leveraging AWS services such as DynamoDB and S3 to handle data storage and deployment
- Implementing cloud infrastructure using Terraform, helping to work toward an efficient and reliable deployment process
- Actively participating in running agile ceremonies, demonstrating leadership and teamwork by efficiently coordinating tasks and ensuring effective communication within the team

## ● EASY CRYPTO

### Web Developer | April 2022 - Dec 22

- Built a new React Native app from the ground up, highlighting my ability to continue to learn quickly and deliver work in a short space of time, providing value to the project. This involved collaborating with research and design and taking ownership of features
- Taking the lead in researching new frameworks and tech, creating decision records and documentation of these outcomes
- Worked as part of a newly established team. We collaboratively decided on ways of working, and implemented agile ceremonies, constantly improving our processes to become an efficient and high performing team

## ● PHX LIMITED - CONTRACTING TO EASY CRYPTO

### Web Developer | Dec 2021 - April 2022

- Designed and built reusable components, following the Single Responsibility Principle. This was the beginning of a component library package that would be reused throughout the business
- Displayed the capacity to be proactive and autonomous whilst working remotely, also acknowledging when I needed to reach out to my colleagues to ask for support. I utilised time-boxing, spikes and pair-programming to ensure forward progress
- Strong communication skills, improved by working remotely with colleagues across New Zealand and Argentina

## ● ENSPIRAL DEV ACADEMY

### Apprentice/Student | June 2021 - Oct 2021

- Experience in HTML, JavaScript, Git, Linux command line, Express, Node, SQL databases, MUI, React and Redux
- An in-depth human skills program with a focus on giving and receiving feedback, difficult conversations, bias mitigation, active listening and effective communication
- Pair programming and team projects, following agile principles
- Utilised my ability to reflect on my educational journey so I could adapt and therefore accelerate my learning

## ● PRIVATE EMPLOYER

### Nanny | June 2019-June 2021

## ● CARDRONA ALPINE RESORT

### Snowboard Instructor | June 2017-Oct 2017
